

Wise Egypt Company Profile

Smart ERP, AI & IoT Software Solutions for Modern Businesses

Wise Egypt is a software and digital transformation company specialized in Odoo ERP implementation, customization, integration, and training. We help companies improve their operations through smart ERP solutions, AI-powered software development, IoT-based monitoring systems, and customized digital platforms.

Company Profile

Wise Egypt is a software and digital transformation company specialized in Odoo ERP implementation, customization, integration, and training. We help companies improve their operations through smart ERP solutions, AI-powered software development, IoT-based monitoring systems, and customized digital platforms.

Company Overview

Wise Egypt delivers smart business software solutions that help companies move from manual operations to connected, data-driven systems. Our solutions improve visibility, accuracy, productivity, and management control across different business functions.

We combine ERP implementation experience, software development capabilities, and practical industry knowledge to deliver reliable, scalable, and user-friendly systems.

Vision

To become a trusted digital transformation partner for businesses seeking practical ERP, AI, IoT, and industry-focused software solutions.

Mission

To help companies digitize operations, reduce manual work, improve decision-making, and build connected systems that support daily operations and long-term growth.

Core Values

- Practical business understanding
- Reliability and long-term commitment
- Clear communication and documentation
- Continuous improvement
- Customer-focused implementation
- Data-driven decision-making

What We Do

- Odoo ERP implementation, customization, integration, and training
- AI and IoT software development
- Garment factory systems and production monitoring
- Dashboards, reporting, automation, and custom web applications

Main Services

- Odoo ERP implementation
- Odoo customization and development
- Odoo integration with external systems
- Odoo user training and support
- AI and IoT software development
- Custom web applications and business intelligence reports

Main Products

- Wise PMS System - IoT-based production management for garment factories
- Cutting Room Management System integrated with Odoo ERP
- Wise CRM System for Odoo ERP Addons
- Wise QC System for Odoo ERP Addons
- Wise Maintenance System for Odoo ERP Addons
- Wise Bundling System
- Wise Production Tracking System
- Wise IoT Machine Monitoring System

Odoo ERP Services

- Odoo ERP implementation
- Odoo module configuration
- Odoo customization and development
- Odoo reports and dashboards
- Odoo integration with external systems
- Odoo data migration, user training, support, and maintenance

Supported Odoo modules:

Odoo HR, Accounting, Manufacturing, Inventory, Purchasing, Maintenance, QC, CRM, PLM, and Project Management.

Garment Factory Solutions

- Wise PMS System for IoT-based production management
- Cutting Room Management System integrated with Odoo ERP
- Production management
- Quality control
- Maintenance follow-up
- Bundling and production tracking
- Line balancing and bottleneck analysis
- Worker performance appraisal
- Factory skill matrix
- Missed time analysis
- Factory minute cost calculation
- Actual operation and style cost analysis
- Real-time factory dashboards

Highlighted Specialized Application: Wise PMS System

- Wise PMS System is an IoT-based Production Management System for garment factories. It connects sewing machines, operators, operations, and production lines into one real-time digital platform, giving management accurate shopfloor visibility from machine output to final performance analysis.
- The system supports real-time monitoring for every sewing machine, line balancing, bottleneck analysis, worker performance appraisal, factory skill matrix management, missed time and downtime analysis, factory minute cost calculation, actual operation cost analysis, actual style cost analysis, QC integration, maintenance integration, bundling integration, and end-to-end production tracking.

Highlighted Specialized Application: Cutting Room Management System

- Wise Egypt provides a specialized Cutting Room Management System integrated with Odoo ERP Manufacturing and Inventory. The system helps garment factories plan cutting schedules, import marker files, generate lays and ticket numbers, reserve lot-specific fabric, create bundles, and trace every bundle back to TN, lay, marker, fabric lot, stock move, manufacturing order, buy ID, and schedule.

Wise PMS System

Wise PMS System supports garment factory production planning, monitoring, reporting, and management visibility across production operations. It helps teams follow production performance, track key activities, monitor machine and operator performance, and improve control over factory execution.

Wise CRM System

Wise CRM System supports lead qualification, sales workflow, onboarding follow-up, activities, dashboards, and performance visibility for sales and customer management teams.

IoT & Production Monitoring Solutions

- IoT machine monitoring
- Real-time production data collection
- Operator and machine performance visibility
- Smart dashboards
- API integrations
- Automation systems
- Business intelligence reports

Industries We Serve

- Garment and textile factories
- Manufacturing companies
- Retail businesses
- Distribution companies
- Restaurants and POS businesses
- Service companies
- Training centers
- Trading companies

Our Satisfied Partners and Clients

Wise Egypt works with businesses that need practical digital transformation, ERP, production management, and operational visibility.

Implementation Methodology

- 1. Business Analysis - study workflows, challenges, and goals.
- 2. Requirement Documentation - define processes, reports, roles, approvals, and integrations.
- 3. System Design - design the solution structure.
- 4. Development & Configuration - configure and develop required features.
- 5. Testing & Training - validate the solution and train users.
- 6. Go-Live & Support - support launch and continuous improvement.

Support & Maintenance

Wise Egypt provides post-implementation support, issue follow-up, user assistance, system improvements, reporting updates, and continuous enhancement services to keep business systems reliable and useful.

Why Choose Wise Egypt

- Strong experience in garment factory operations
- Specialized Wise PMS System for IoT-based production management
- Specialized Cutting Room Management System integrated with Odoo ERP
- Practical understanding of ERP implementation
- Odoo customization and integration capability
- AI and IoT software development experience
- Customized solutions based on real customer needs
- Real-time dashboards and reporting
- Long-term support and continuous improvement
